

Safety Cable Tray Roll Forming Machine Factory With Precision Cutter / 22 Forming Stations

Our Product Introduction

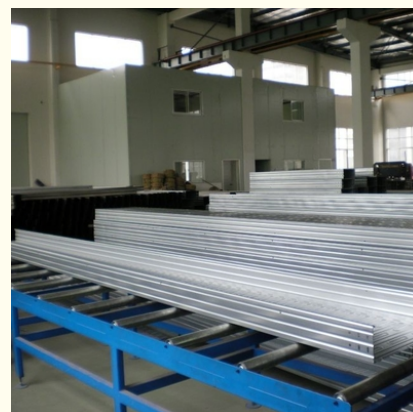

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Cable Tray
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD55000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Capacity: About 0-15m/min
- Cutter Standard: Cr12Mov
- Material Width: 100-600mm
- Forming Stations: 22 Stations
- Core Components: Motor, Pump, PLC
- Yield Strength: Q235Mpa
- Hydraulic Motor Power: 3kW
- Controller: PLC System
- Highlight: Safety Cable Tray Roll Forming Machine, Cable Tray Roll Forming Machine 22 Stations, Cable Tray Roll Forming Machine Factory

Product Description

Efficiency Cable Tray Roll Forming Machine With Precision Cutter And 22 Forming Stations

Product Description:

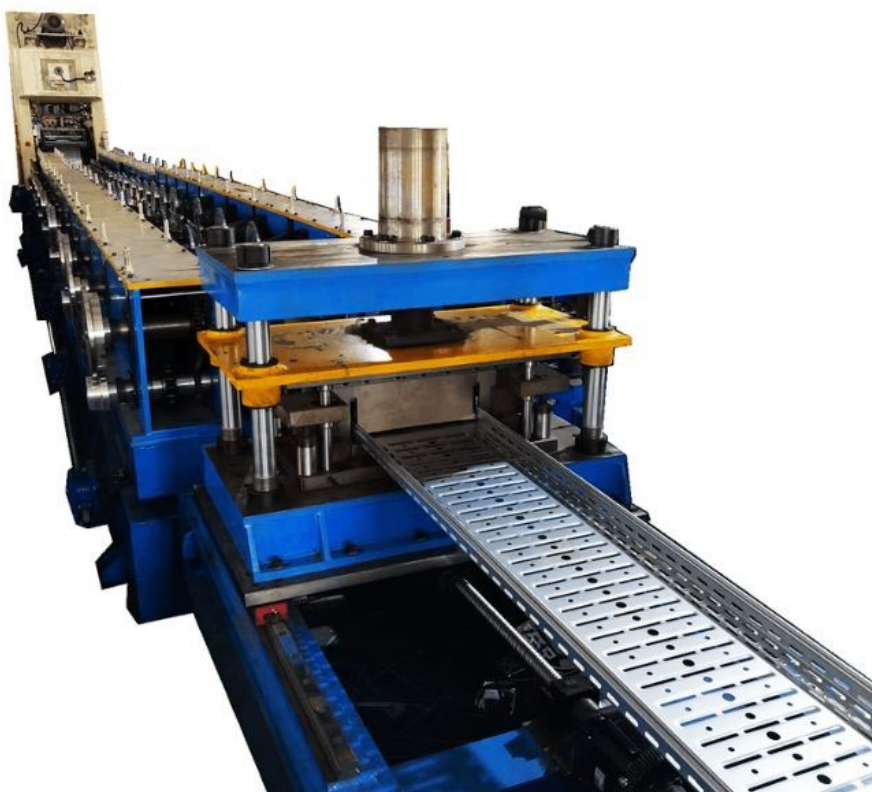

The Cable Tray Machine is designed to handle material thicknesses between 1.0-2.0mm Galvanized Coils, making it ideal for a wide range of cable tray applications. The machine is equipped with a powerful 3kW hydraulic motor that provides the necessary power and torque to handle even the toughest materials.

The core components of the Cable Tray Roll Forming Machine include a motor, pump, and PLC, which work together to ensure efficient and reliable operation. The PLC controls the entire production process, ensuring that each cable tray is produced to the highest quality standards.

The Cable Tray Machine is designed with a focus on safety and ease of use. The machine is easy to operate, with intuitive controls and a user-friendly interface. The machine is also designed to be easy to maintain, with simple and easy-to-replace parts.

The Cable Tray Support Channel Roll Forming Machine is made with high-quality materials, including Q235Mpa yield strength steel, which ensures that the machine is durable and long-lasting. The machine is also designed to be highly efficient, with a high production rate and low energy consumption.

Overall, the Cable Tray Roll Forming Machine is an excellent choice for anyone looking for a high-quality Cable Tray Machine that is reliable, efficient, and easy to use. With its long service life, powerful hydraulic motor, and high-quality components, this machine is sure to meet the needs of any cable tray production facility.

Features:

Product Name: Cable Tray Roll Forming Machine

Yield Strength: Q235Mpa

Cutter Standard: Cr12Mov

Material Width: 100-600mm

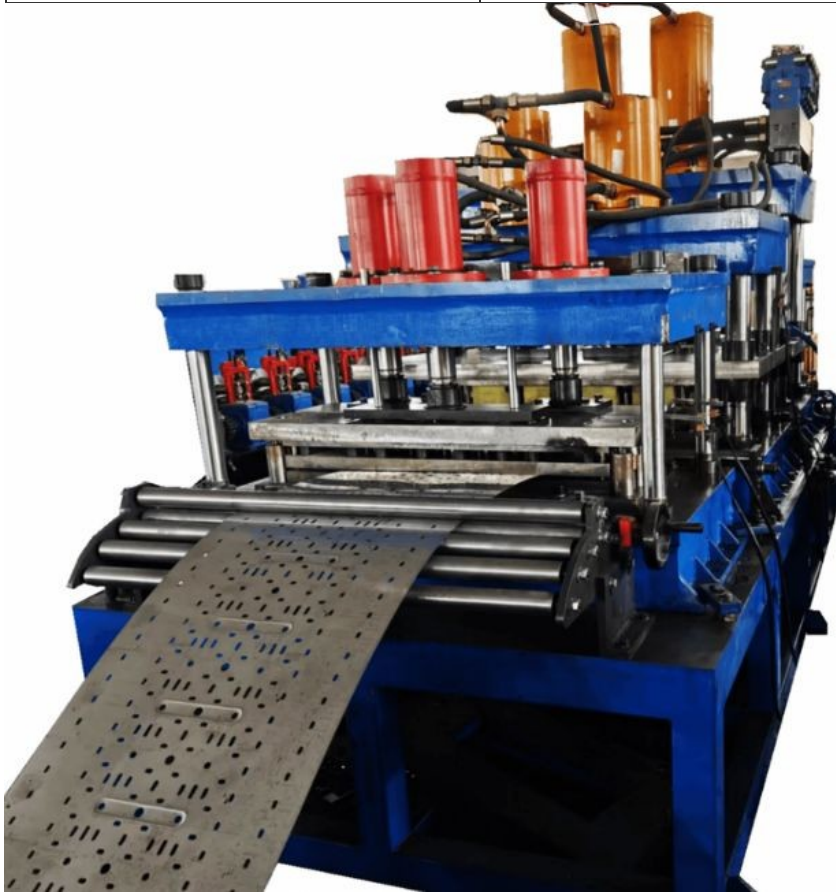

Forming Stations: 22 Stations

Plc: Siemens

Looking for a reliable cable tray machine manufacturer? Check out our high-quality Cable Tray Roll Forming Machine, designed to meet your specific needs and requirements. With a yield strength of Q235Mpa and a cutter standard of Cr12Mov, our machine can handle material widths ranging from 100-600mm. Featuring 22 stations and a Siemens PLC, our Cable Tray Roll Forming Machine is the perfect solution for your cable tray production needs.

Technical Parameters:

Product Name	Cable Tray Roll Forming Machine
Core Components	Motor, Pump, PLC
Control	PLC Systems
Capacity	About 0-15m/min
Forming Stations	22 Stations
Yield Strength	Q235Mpa
Cutter Standard	Cr12Mov
Hydraulic Motor Power	3kW
Plc	Siemens
Material Width	100-600mm
Material Thickness	1.0-2.0mm Galvanized Coils

Applications:

Our Cable Tray Roll Forming Machine has obtained CE and ISO9001 certification, ensuring that our products meet the highest standards of quality. With a minimum order quantity of 1 set, our machines are suitable for both small and large projects. The packaging details of our Cable Tray Roll Forming Machine are Nude Packing In a 40 Feet Container, which is convenient for transportation and reduces the risk of damage during transit. Our delivery time is 60 workdays, and we accept payment terms of T/T and L/C. Additionally, we have a supply ability of 30 sets per month, ensuring that our customers receive their products in a timely manner. Our Cable Tray Roll Forming Machine has a hydraulic motor power of 3kW and is equipped with a PLC system controller, with Siemens PLC. This ensures that the machine is easy to operate and maintain, reducing downtime and increasing productivity. The yield strength of our machine is Q235Mpa, ensuring the durability and longevity of the final product.

Our Cable Tray Roll Forming Machine is suitable for a variety of product application occasions and scenarios, including construction sites, industrial factories, and commercial buildings. The machine can produce cable trays of various sizes and shapes, including ladder type, perforated type, and solid bottom type.

In conclusion, Hangzhou Maxwell is a reliable cable tray machine manufacturer that provides high-quality Cable Tray Support Channel Roll Forming Machines. Our machines are designed to meet the needs of different customers and are suitable for various product application occasions and scenarios.

Customization:

Our Cable Tray Machine has a material width of 100-600mm and is equipped with Siemens PLC. It has 22 forming stations and is controlled by PLC Systems. The core components of the machine include motor, pump, and PLC.

Support and Services:

The Cable Tray Roll Forming Machine is a high-quality, durable machine designed for producing cable trays of various sizes and shapes. We offer comprehensive technical support and services to ensure that our customers get the most out of their investment in this machine. Our technical support team is highly knowledgeable and experienced and is available to answer any questions or concerns that our customers may have about the machine. We also offer training and installation services to help our customers get started with using the machine and to ensure that it is set up correctly.

In addition to technical support and services, we also offer a range of maintenance and repair services to keep the Cable Tray Roll Forming Machine running smoothly. Our team of skilled technicians can perform routine maintenance tasks, such as lubrication and cleaning, as well as more complex repairs.

Overall, we are committed to providing our customers with the highest level of support and service for the Cable Tray Roll Forming Machine. We understand that our customers rely on this machine to produce high-quality cable trays, and we are dedicated to helping them achieve their production goals.

Packing and Shipping:

Product Packaging:

The Cable Tray Roll Forming Machine will be securely packed in a wooden crate.

All necessary components and accessories will be included in the crate.

The crate will be labeled with the product name and specifications for easy identification.

Shipping:

The Cable Tray Roll Forming Machine will be shipped through a reliable freight service.

The shipping cost will be included in the product price.

The estimated delivery time will be provided to the customer upon purchase.

The customer will be provided with a tracking number to track the shipment.
