

## Hydraulic Motor Cable Tray Forming Machine Siemens PLC Long Service Life

Our Product Introduction

For more products please visit us on [roll-formermachines.com](http://roll-formermachines.com)

### Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Cable Tray
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD55000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

### Product Specification

- Material Thickness: 1.0-2.0mm Galvanized Coils
- Plc: Siemens
- Raw Material: PPGI, PPGI
- Hydraulic Station Power: 15KW
- Key Selling Points: Long Service Life
- Cutter Standard: Cr12Mov
- Material Width: 100-600mm
- Core Components: Motor, Pump, PLC
- Highlight: Hydraulic Motor Cable Tray Forming Machine, Cable Tray Forming Machine Siemens PLC

## Product Description

### Product Description:

The controller for the Cable Tray Roll Forming Machine is a PLC system, which allows for easy control and programming of the machine. You can rest assured that your Cable Tray Machine will operate smoothly and precisely with this advanced control system.

As a leading Cable Tray Machine Manufacturer, we are proud to offer this top-of-the-line Cable Tray Roll Forming Machine to our customers. The PLC system used in this machine is a Siemens system, ensuring quality and reliability. With the ability to control and program your machine to meet your exact specifications, you will be able to produce high-quality cable trays that meet your customers' needs.

Investing in a Cable Tray Roll Forming Machine is a smart business decision. With the ability to produce cable trays quickly and efficiently, you can increase your productivity and profitability. With a long service life, you can rely on this machine to provide you with a high return on investment for years to come.

### Features:

Product Name: Cable Tray Roll Forming Machine

Forming Stations: 22 Stations

Core Components: Motor, Pump, PLC

Cutter Standard: Cr12Mov

Capacity: About 0-15m/min

Hydraulic Station Power: 15KW

Get your hands on the top-quality Cable Tray Support Channel Roll Forming Machine that features 22 stations for efficient performance. With core components such as Motor, Pump, and PLC, this Cable Tray Machine is a durable choice for all your roll forming needs. Equipped with Cutter Standard: Cr12Mov, this machine has a capacity of about 0-15m/min and operates on a Hydraulic Station Power of 15KW.

### Technical Parameters:

Capacity	About 0-15m/min
Forming Stations	22 Stations
Hydraulic Motor Power	3kW

Control	PLC Systems
Hydraulic Station Power	15KW
Raw Material	PPGI,PPGI
Material Width	100-600mm
Material Thickness	1.0-2.0mm Galvanized Coils
Controller	PLC System
Cutter Standard	Cr12Mov

### Support and Services:

1. Installation and Commissioning: Our team of experienced engineers will help you with the installation and commissioning of the machine to ensure it is up and running in no time.
  2. Training: We provide training to your staff on how to operate the machine safely and effectively. This will help to reduce downtime and improve productivity.
  3. Maintenance and Repair: We offer maintenance and repair services to keep your machine running smoothly. Regular maintenance will help to extend the lifespan of the machine.
  4. Technical Support: Our technical support team is available to provide assistance with any technical issues you may encounter with the machine.
  5. Upgrades and Customization: We offer upgrades and customization services to ensure that your machine is up to date with the latest technology and meets your specific needs.
- With our product technical support and services, you can be assured of the highest quality and reliability of your Cable Tray Roll Forming Machine.

### Packing and Shipping:

Product Packaging:

The cable tray roll forming machine will be packaged in a sturdy wooden crate to ensure safe transportation.  
All components will be securely fastened and protected with foam padding to prevent damage during shipping.  
The crate will be labeled with the product name, weight, and dimensions for easy identification.

Shipping:

The cable tray roll forming machine will be shipped via a reliable and trusted carrier to ensure timely and safe delivery.  
Shipping charges will be calculated based on the destination and weight of the product.  
Once the product has been shipped, the customer will receive a tracking number and updates on the delivery status.
