

## 22 Station Siemens PLC Cable Tray Manufacturing Machine Long Service Life

Our Product Introduction

For more products please visit us on [roll-formermachines.com](http://roll-formermachines.com)

### Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Cable Tray
- Minimum Order Quantity: 1 Set
- Price: USD24000-USD65000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

### Product Specification

- Material Thickness: 1.0-2.0mm Galvanized Coils
- Forming Stations: 22 Stations
- Plc: Siemens
- Key Selling Points: Long Service Life
- Core Components: Motor, Pump, PLC
- Hydraulic Motor Power: 3kW
- Raw Material: PPGI, PPGI
- Yield Strength: Q235Mpa
- Highlight: 22 Station Cable Tray Manufacturing Machine, Siemens PLC Cable Tray Manufacturing Machine

## Product Description

### 22 Station Long Life Siemens PLC Cable Tray Channel Roll Forming Machine

#### Product Description:

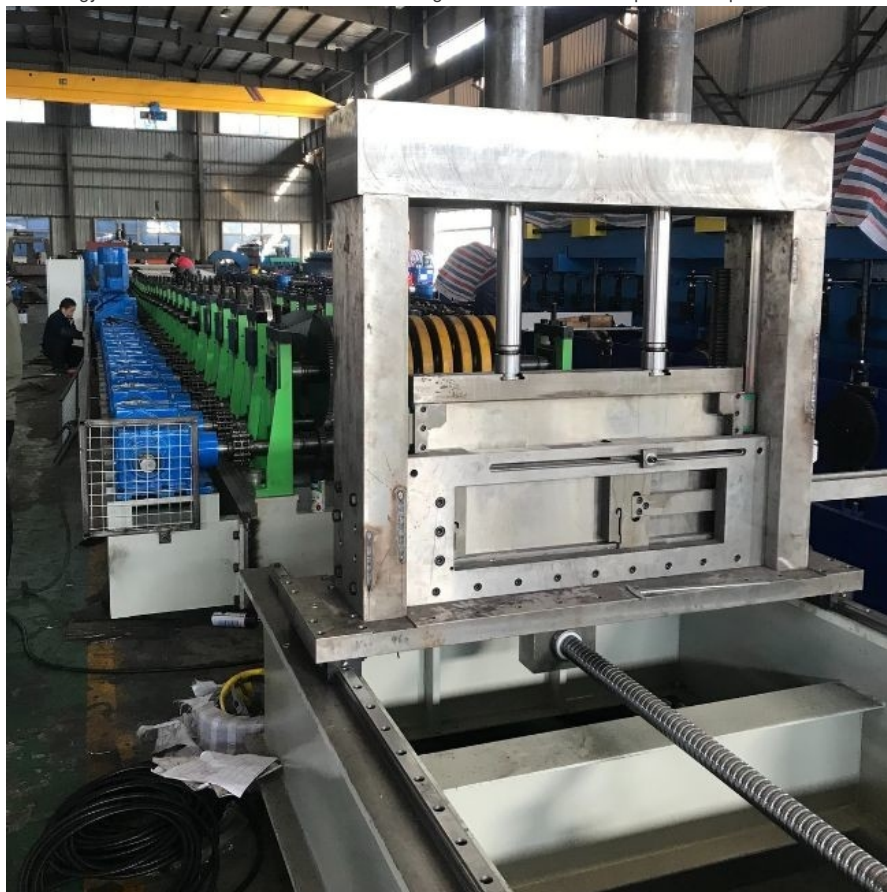

The Cable Tray Roll Forming Machine is built with a PLC system from Siemens, which ensures that the machine is fully automated, and the production process is smooth and error-free. The PLC system also ensures that the machine is easy to operate and maintain.

The Hydraulic Motor Power of the Cable Tray Roll Forming Machine is 3kW, which makes it highly efficient and powerful. The Hydraulic Station Power is 15KW, which ensures that the machine runs smoothly and without any interruptions.

The Cable Tray Roll Forming Machine has 22 stations, which means that it can produce high-quality Cable Tray Channel Roll Forming Machine in large quantities. The machine is designed to be highly reliable, and it can work continuously for long periods without any issues.

The Cable Tray Roll Forming Machine is also equipped with advanced features such as automatic lubrication, which ensures that the machine is always lubricated and ready to use. The machine is also designed to be easy to maintain, which means that it requires minimal downtime for maintenance and repairs.

In conclusion, the Cable Tray Roll Forming Machine is an excellent investment for any industrial company that requires high-quality Cable Tray Channel Roll Forming Machine. It is a reliable, efficient, and easy-to-use machine that is equipped with advanced features and technology. The machine is built to last and is designed to ensure that the production process is smooth and error-free.

#### Features:

Product Name: Cable Tray Roll Forming Machine

Hydraulic Motor Power: 3kW

Key Selling Points: Long Service Life

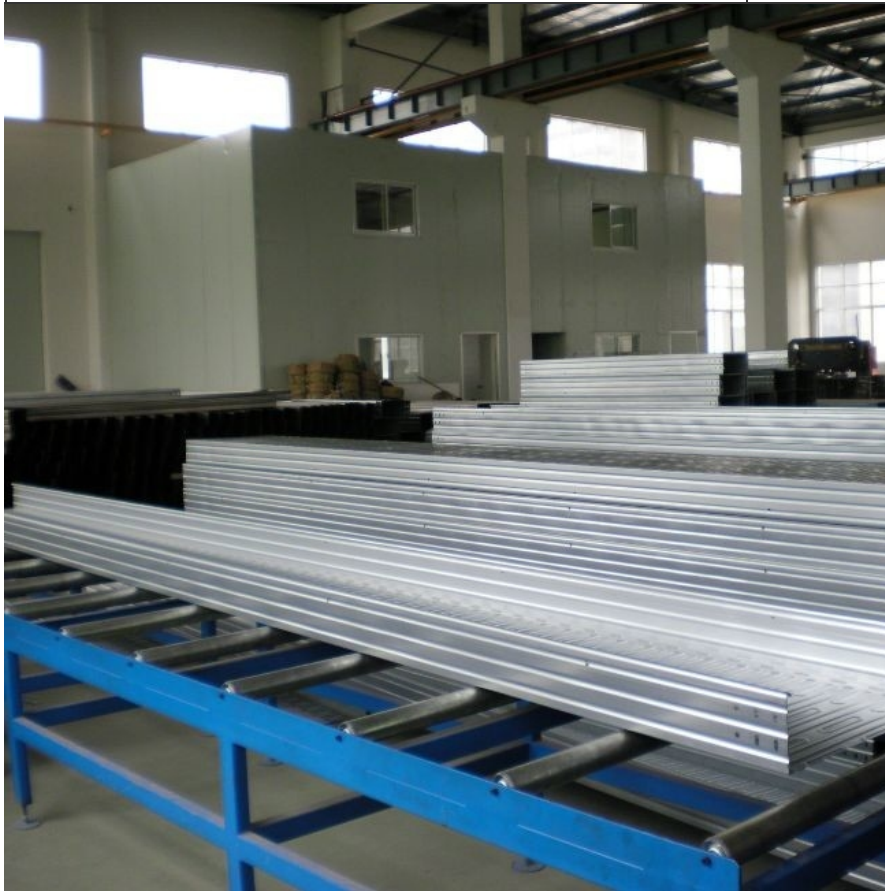

Cutter Standard: Cr12Mov

Raw Material: PPGI, PPGI

Material Width: 100-600mm

### Technical Parameters:

Cable Tray Roll Forming Machine	
Control	PLC Systems
Core Components	Motor, Pump, PLC
Capacity	About 0-15m/min
Controller	PLC System
Hydraulic Motor Power	3kW
Material Width	100-600mm
Cutter Standard	Cr12Mov
Forming Stations	22 Stations
Raw Material	PPGI,PPGI
Yield Strength	Q235Mpa

### Applications:

Our cable tray roll forming machine is perfect for various application occasions and scenarios. For instance, it is ideal for use in industrial settings where you need to create cable trays that can support heavy loads. The machine's long service life is a key selling point, ensuring that you can use it for years to come without any significant maintenance issues. Additionally, the machine's capacity of about 0-15m/min ensures that you can produce a high volume of cable trays within a short period.

Our cable tray roll forming machine is ideal for use in various industries, including construction, telecommunications, and power distribution. You can use the machine to create cable trays of different sizes, ranging from 100-600mm. Additionally, the cutter standard of Cr12Mov ensures that you can produce precise cuts on your cable trays.

Our cable tray roll forming machine is certified by CE and ISO9001, ensuring that it meets international quality standards. You can order a minimum of one set of the machine, and we will package it in a 40-foot container for delivery. Our delivery time is 60 workdays, and we accept payment terms of T/T and L/C. Our supply ability is 30 sets per month, ensuring that we can meet your production needs.

Our cable tray roll forming machine's core components include the motor, pump, and PLC, which ensure that it operates smoothly and efficiently. You can trust Hangzhou Maxwell as your cable tray machine manufacturer to provide you with a reliable and high-quality cable tray roll forming machine that meets your production needs.

### Customization:

Our Cable Tray Support Channel Roll Forming Machine is manufactured in Zhejiang, China and meets CE and ISO9001 certification standards. You can trust our quality and performance.

The minimum order quantity for our Cable Tray Roll Forming Machine is 1 set, and it comes with nude packing in a 40 feet container. The delivery time is 60 workdays, and payment terms include T/T and L/C. Our supply ability is 30 sets per month.

The Cable Tray Roll Forming Machine can accommodate material widths between 100-600mm and material thicknesses between 1.0-2.0mm Galvanized Coils. It is equipped with core components such as a motor, pump, and PLC system, which ensures efficient and

precise control. The hydraulic motor power is 3kW.

### Support and Services:

- Installation and commissioning services
- Training for operators and maintenance personnel
- Regular maintenance and inspection services
- Troubleshooting and repair services
- Upgrades and retrofits to improve performance and efficiency

Our team of experienced technicians and engineers are available to assist with any technical issues or questions that may arise. We are committed to providing our customers with the highest level of support and service to ensure that their Cable Tray Roll Forming Machine operates at peak performance.

### Packing and Shipping:

The Cable Tray Roll Forming Machine will be packaged in a wooden case to ensure safe transportation.

The machine will be wrapped with protective materials to prevent any damage during shipping.

The package will also include a user manual and spare parts.

Shipping:

The Cable Tray Roll Forming Machine will be shipped via sea or air, depending on the customer's preference and location.

Shipping costs will be calculated based on the destination and weight of the package.

The estimated delivery time will be provided to the customer once the order has been confirmed.
