

## Galvanized Coil Cable Tray Roll Forming Line Machine with PLC Control System

Our Product Introduction

For more products please visit us on [roll-formermachines.com](http://roll-formermachines.com)

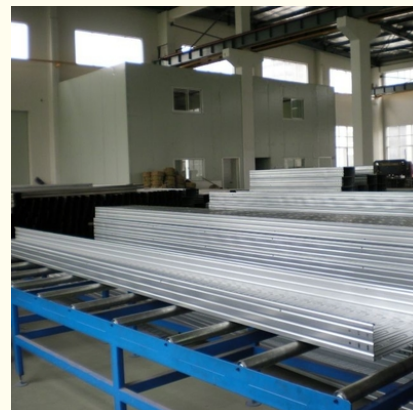

### Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Cable Tray
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD55000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

### Product Specification

- Controller: PLC System
- Material Thickness: 1.0-2.0mm Galvanized Coils
- Hydraulic Motor Power: 3kW
- Control: PLC Systems
- Yield Strength: Q235Mpa
- Capacity: About 0-15m/min
- Core Components: Motor, Pump, PLC
- Raw Material: PPGI, PPGL
- Highlight: Galvanized Coil Cable Tray Roll Forming Line, Cable Tray Roll Forming Line Machine

## Product Description

### Galvanized Coil Cable Tray Channel Roll Forming Machine with PLC Control System

#### Product Description:

The Cable Tray Support Channel Roll Forming Machine is made from high-quality materials, ensuring durability and longevity. The machine is designed to handle both PPGI and PPGL raw materials with ease. The machine can handle materials with a yield strength of up to Q235Mpa, making it suitable for a wide range of applications.

The Cable Tray Roll Forming Machine is equipped with advanced PLC systems that ensure precise control over the entire production process. The machine is easy to operate and requires minimal maintenance, making it an ideal choice for busy production facilities. The Cable Tray Roll Forming Machine comes equipped with 22 forming stations, ensuring that each cable tray is produced to exact specifications. The machine is capable of producing cable trays in a wide range of sizes and shapes, making it an ideal choice for a variety of applications.

Overall, the Cable Tray Support Channel Roll Forming Machine is an excellent choice for anyone looking to produce high-quality cable trays quickly and efficiently. With its advanced features and reliable performance, this machine is sure to meet all of your production needs.

#### Features:

Product Name: Cable Tray Roll Forming Machine

Material Thickness: 1.0-2.0mm Galvanized Coils

Core Components: Motor, Pump, PLC

Control: PLC Systems

Raw Material: PPGI, PPGL

Controller: PLC System

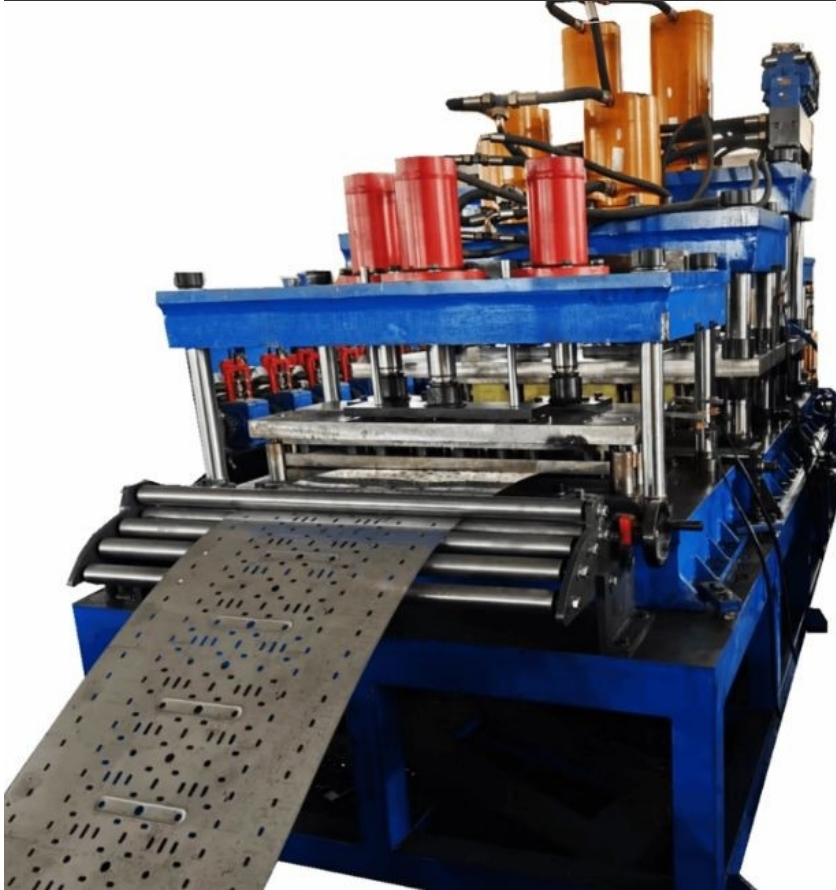

Cable Tray Machine

Cable Tray Machine Manufacturer

#### Technical Parameters:

Cable Tray Support Channel Roll Forming Machine	
Control	PLC Systems

Yield Strength	Q235Mpa
Material Thickness	1.0-2.0mm Galvanized Coils
Hydraulic Station Power	15KW
Key Selling Points	Long Service Life
Plc	Siemens
Raw Material	PPGI,PPGI
Controller	PLC System
Capacity	About 0-15m/min
Forming Stations	22 Stations

### Applications:

The cable tray machine provided by Hangzhou Maxwell is made in Zhejiang, China, and is certified with CE and ISO9001, ensuring high quality and safety standards. The minimum order quantity is 1 set and the machine is packaged in nude packing in a 40 feet container for safe and secure delivery. The delivery time is 60 workdays and payment terms are flexible, including T/T and L/C. With a supply ability of 30 sets per month, Hangzhou Maxwell can meet the demand for cable tray machines from various industries.

The cable tray machine is designed to operate at a capacity of about 0-15m/min, ensuring high efficiency and productivity. The cutter standard is Cr12Mov, ensuring durability and long service life. The machine is suitable for material thicknesses of 1.0-2.0mm galvanized coils, making it a versatile tool for various applications.

The cable tray machine is equipped with a PLC system controller, ensuring easy operation and control. With its long service life, the cable tray machine provided by Hangzhou Maxwell is a reliable and cost-effective solution for cable management. The machine is suitable for a wide range of application occasions and scenarios, including commercial buildings, industrial plants, and data centers.

### Support and Services:

The Cable Tray Roll Forming Machine is designed and manufactured to provide reliable and efficient cable tray production for various industries. Our product technical support and services include:

[Installation and commissioning](#)

[Training for machine operation and maintenance](#)

[Regular maintenance and repair services](#)

[Spare parts supply](#)

[Technical consultation and troubleshooting](#)

We are committed to providing our customers with high-quality solutions and excellent customer service. If you have any questions or concerns about our Cable Tray Roll Forming Machine, please do not hesitate to contact us.

### Packing and Shipping:

Product Packaging:

The Cable Tray Roll Forming Machine will be carefully packed in a sturdy wooden crate to ensure that it arrives in perfect condition. The crate will be sealed and labeled with the product details for easy identification.

Shipping:

The Cable Tray Roll Forming Machine will be shipped via sea or air freight, depending on the customer's preference and location. Our logistics team will handle all necessary arrangements and provide the customer with a tracking number for their order. Delivery times may vary depending on the destination and shipping method.
