

Metal Straightening Machine 600mm-1600mm Steel Sheet Leveling Machine PLC Control

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Leveling Machine
- Minimum Order Quantity: 1 Set
- Price: USD5000-USD15000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 100 Set per Mon

Product Specification

- Name: Metal Straightening Machine
- Cut Length: 600-6000mm
- Application: Carbon Steel, Hot Rolled Steel
- Voltage: 220V
- Width: 600-1600mm
- Frequency: 50Hz
- Coil Weight: 15T/20T
- Control Model: PLC Control
- Highlight: **Metal Straightening Machine 600mm,
1600mm Steel Sheet Leveling Machine,
Steel Sheet Leveling Machine PLC Control**

Product Description

Metal Sheet Straightening Leveling Machine 600-1600mm PLC Control

Product Description:

The Steel Sheet Leveling Machine is perfect for industries that require precision and accuracy in their production processes. It is capable of handling coil weights of up to 15T/20T, making it a versatile and powerful machine that can handle a wide range of steel sheets. The machine is ideal for use in industries such as automotive, construction, and manufacturing.

With its advanced features and capabilities, the Metal Sheet Leveling Machine is designed to provide efficient and reliable performance. It is equipped with the latest technology, allowing it to straighten and level steel sheets with precision and accuracy. The machine is also easy to operate, making it a popular choice for businesses of all sizes.

One of the key benefits of the Steel Sheet Leveling Machine is its ability to improve the quality of steel sheets. By straightening and leveling the sheets, the machine ensures that they are flat and uniform, which is essential for many industrial applications. This not only improves the quality of the final product but also reduces the risk of damage during handling and transportation.

The Metal Sheet Straightening Leveling Machine is also highly efficient, making it a cost-effective choice for businesses. It is designed to minimize waste and reduce production time, helping businesses to save time and money. Additionally, the machine is built to last, which means that businesses can rely on it for many years of service.

In conclusion, the Steel Sheet Leveling Machine is a versatile and efficient machine that is well-suited to the needs of various industries. It provides precision and accuracy in steel sheet straightening and leveling, improving the quality of the final product and reducing the risk of damage. With its advanced features and capabilities, the machine is easy to operate and highly efficient, making it a cost-effective choice for businesses. So, if you're looking for a reliable and efficient Metal Sheet Leveling Machine, look no further than this high-quality product.

Features:

Product Name: Auxiliary Equipment

Line speed: 0-25m/min

Coil weight: 15T/20T

Application: Carbon Steel, Hot Rolled Steel

Control model: PLC Control

Thickness: 2-6mm

Features:

Sheet Metal Leveling Machine

Automatic stacker for steel roof

Metal Sheet Leveling Machine

Technical Parameters:

Name	Steel Sheet Leveling Machine
Width	600-1600mm
Line Speed	0-25m/min
Application	Carbon Steel, Hot Rolled Steel
Voltage	220V
Frequency	50Hz
Warranty	1 Year
Cut Length	600-6000mm
Control Model	PLC Control
Thickness	2-6mm

Applications:

This Metal Sheet Leveling Machine is designed to straighten and level carbon steel and hot-rolled steel sheets with a width of 600-1600mm. It can handle coil weights of up to 15T/20T, making it ideal for heavy-duty steel processing tasks. With its PLC control model, you can easily adjust and program the machine to achieve the desired level of straightness and flatness for your steel sheets. This Sheet Metal Leveling Machine is perfect for use in various applications and scenarios, such as in steel manufacturing plants, metalworking factories, and construction sites. It can help improve the quality and accuracy of your steel products, ensuring they meet industry standards and customer requirements. Whether you're working on large-scale construction projects or producing steel products for export, this machine can help you achieve your goals. When you order this Metal Sheet Leveling Machine from Hangzhou Maxwell, you can expect prompt delivery within 60 workdays. You can pay for your order through T/T or L/C, and the minimum order quantity is one set. The machine is packaged securely in a 40 feet container, ensuring it arrives at your location in excellent condition. With a supply ability of 100 sets per month, you can be sure that you'll get the machine you need when you need it.

Support and Services:

Our team of technical support experts is available to assist you with any questions or issues you may have with our Auxiliary Equipment product. We offer a range of services, including:

- Installation guidance and support
- Troubleshooting assistance
- Repair and maintenance services
- Product training for your staff

Our goal is to ensure that your Auxiliary Equipment is running smoothly and efficiently, so please don't hesitate to reach out to us for any assistance you may need.

Packing and Shipping:

Product Packaging:

The auxiliary equipment will be packaged in a sturdy cardboard box.

The box will be sealed with packing tape to ensure the safety of the product during transport.

The product will be wrapped in bubble wrap for added protection.

A packing slip will be included in the package.

Shipping:

The package will be shipped via standard ground shipping.

Shipping fees will be calculated based on the destination and weight of the package.

The estimated delivery time will be provided upon checkout.

A tracking number will be provided once the package has been shipped.

For international orders, additional customs fees may apply.
