

PLC Control Auxiliary Equipment 220V Sheet Metal Leveling Machine

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Leveling Machine
- Minimum Order Quantity: 1 Set
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 100 Set per Mon

Product Specification

- Frequency: 50Hz
- Width: 600-1600mm
- Line Speed: 0-25m/min
- Cut Length: 600-6000mm
- Warranty: 1 Year
- Control Model: PLC Control
- Voltage: 220V
- Application: Carbon Steel, Hot Rolled Steel
- Highlight: **PLC Control Auxiliary Equipment, 220V Sheet Metal Leveling Machine**

Product Description

Metal Sheet Coil Straightener Leveling Machine PLC Control Auxiliary Equipment With 220V Voltage

Product Description:

The Metal Sheet Leveling Machine operates at a frequency of 50Hz, ensuring maximum efficiency in the production process. The PLC Control model allows for easy and accurate control of the machine, ensuring precision in the leveling process. This feature makes it easy to produce high-quality metal sheets that meet the industry's rigorous standards.

Our Auxiliary Equipment product also comes with an Automatic Stacker for Steel Roofs, making it easy to stack and organize steel sheets after the leveling process. The automatic stacking system is designed to handle sheets with a maximum weight of 15T/20T. This feature ensures that the production process runs smoothly and efficiently, saving time and reducing the workload of your workforce.

With a voltage of 220V, the Auxiliary Equipment product can be easily integrated into any steel processing plant without the need for major electrical upgrades. Additionally, the equipment's compact design ensures that it occupies minimal floor space, making it ideal for plants with limited space.

Overall, the Auxiliary Equipment product is an excellent investment for any steel processing plant. Its features, including the Steel Sheet Leveling Machine, Metal Sheet Leveling Machine, and Automatic Stacker for Steel Roof, make it an indispensable tool for any metal sheet processing workflow. Order yours today and experience the difference in efficiency and productivity in your steel processing plant.

Features:

Product Name: Metal Sheet Coil Straightener Leveling Machine

Line speed: 0-25m/min

Warranty: 1 Year

Frequency: 50Hz

Voltage: 220V

Name: Metal Sheet Straightening Leveling Machine

Description: This is a Sheet Metal Leveling Machine, also known as a Steel Sheet Leveling Machine. It comes with an Automatic stacker for a steel roof.

Technical Parameters:

| | |
|-------------|------------|
| Warranty | 1 Year |
| Width | 600-1600mm |
| Voltage | 220V |
| Coil weight | 15T/20T |

| | |
|-------------|--|
| Frequency | 50Hz |
| Line speed | 0-25m/min |
| Cut length | 600-6000mm |
| Application | Carbon Steel, Hot Rolled Steel |
| Thickness | 2-6mm |
| Name | Metal Sheet Straightening Leveling Machine |

Applications:

The Metal Sheet Straightening Leveling Machine has a width of 600-1600mm and can handle a thickness of 2-6mm. It operates at a voltage of 220V and frequency of 50Hz. This machine is perfect for straightening and leveling metal sheets, making it suitable for various industries.

This Sheet Metal Leveling Machine is suitable for a range of product application occasions and scenarios. One such scenario is the manufacturing of Automatic Stacker for Steel Roof. The Metal Sheet Straightening Leveling Machine ensures that the metal sheets used in the automatic stacker are straight and level, ensuring the smooth operation of the machine.

Another scenario where our Sheet Metal Leveling Machine comes in handy is in the manufacturing of sheet metal components for various industries. The machine can straighten and level the metal sheets, producing high-quality components that meet industry standards.

In conclusion, the Metal Sheet Straightening Leveling Machine from Hangzhou Maxwell is a versatile and efficient product that can be applied in various product application occasions and scenarios. Its high-quality build and efficient operation make it a favorite among manufacturers in various industries.

Support and Services:

Our Auxiliary Equipment product comes with a comprehensive technical support and services package to ensure that your equipment is always running smoothly:

[Installation and setup support](#)

[Training for your staff on proper usage and maintenance](#)

[Regular maintenance and inspection services](#)

[24/7 technical support hotline](#)

[Repairs and replacement parts](#)

Our team of experienced technicians are dedicated to providing fast and efficient support to minimize any downtime and keep your operations running smoothly.

Packing and Shipping:

Product Packaging:

[1 Auxiliary Equipment](#)

[Instruction Manual](#)

[Power Cable](#)

[Warranty Card](#)

Shipping:

[Ships within 1-2 business days](#)

[Free standard shipping within the US](#)

[International shipping available with additional fees](#)

[Tracking information provided upon shipment](#)
