

0-25m/min Sheet Metal Leveling Machine PLC Control Steel Straightening Machine

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Leveling Machine
- Minimum Order Quantity: 1 Set
- Price: USD5000-USD20000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 100 Set per Mon

Product Specification

- Warranty: 1 Year
- Frequency: 50Hz
- Line Speed: 0-25m/min
- Voltage: 220V
- Application: Carbon Steel, Hot Rolled Steel
- Width: 600-1600mm
- Control Model: PLC Control
- Thickness: 2-6mm
- Highlight: 25m/Min Sheet Metal Leveling Machine, Sheet Metal Straightening Machine PLC Control, PLC Control Steel Straightening Machine

Product Description

Metal Sheet Coil Straightener Leveling Machine Steel Sheet Straightening Leveling Machine

Product Description:

The Metal Sheet Leveling Machine comes equipped with a range of advanced features that make it easy to use and highly efficient. These include an automatic stacker for steel roofs, which ensures that metal sheets are stacked quickly and efficiently, reducing downtime and increasing productivity. The machine is also equipped with a range of safety features, including emergency stop buttons and protective guards, to ensure safe and reliable operation at all times.

The machine is powered by 220V electricity, making it easy to integrate into most industrial facilities. Its compact design and durable construction make it an ideal choice for busy metalworking facilities that require reliable and efficient equipment to meet their production needs.

Overall, the Metal Sheet Straightening Leveling Machine is an advanced and reliable piece of auxiliary equipment that is perfectly suited to the needs of modern metalworking facilities. Its ability to handle a range of materials, combined with its advanced features and easy-to-use design, make it a top choice for businesses looking to increase productivity and efficiency in their metalworking operations.

Features:

Product Name: Metal Sheet Coil Straightener Leveling Machine

Name: Metal Sheet Straightening Leveling Machine

Voltage: 220V

Line speed: 0-25m/min

Application: Carbon Steel, Hot Rolled Steel

Frequency: 50Hz

Technical Parameters:

| | |
|--------------|------------------------------|
| Product Name | Steel Sheet Leveling Machine |
| Cut Length | 600-6000mm |

| | |
|---------------|--------------------------------|
| Width | 600-1600mm |
| Control Model | PLC Control |
| Application | Carbon Steel, Hot Rolled Steel |
| Thickness | 2-6mm |
| Warranty | 1 Year |
| Coil Weight | 15T/20T |
| Voltage | 220V |
| Frequency | 50Hz |
| Line Speed | 0-25m/min |

Applications:

The Hangzhou Maxwell Auxiliary Equipment product is a reliable and efficient system designed for steel sheet leveling. With a Cut length of 600-6000mm, a Width of 600-1600mm, and a Thickness of 2-6mm, this product is ideal for various industries that require precision and accuracy in leveling steel sheets.

The product comes with a PLC control model and is certified by CE and ISO9001, ensuring its quality and reliability. The Automatic Stacker for Steel Roof, which is part of the system, makes it easy to stack the leveled steel sheets, reducing manual labor and increasing efficiency.

The Steel Sheet Leveling Machine is suitable for a range of applications, including in the construction industry for roofing and cladding materials and the automotive industry for car body panels. It can also be used in the manufacturing of household appliances, furniture, and other metal products that require precise leveling.

The Hangzhou Maxwell Auxiliary Equipment product has a minimum order quantity of 1 set and can be delivered in 60 workdays. The packaging details include nude packing in a 40 feet container, ensuring safe transport and delivery of the product.

The product's supply ability is 100 sets per month, making it readily available for large-scale projects. Payment terms for the product include T/T and L/C, providing flexibility for customers to choose the payment method that suits them best.

In conclusion, the Hangzhou Maxwell Auxiliary Equipment product is a reliable and efficient system designed for steel sheet leveling. Its Automatic Stacker for Steel Roofs makes it easy to stack leveled sheets, reducing manual labor and increasing efficiency. With its various applications and certifications, this product is ideal for various industries that require precision and accuracy in leveling steel sheets.

Support and Services:

Our Auxiliary Equipment product comes with comprehensive technical support and services to ensure smooth operations for our customers. Our experienced team is available to assist with installation, maintenance, and troubleshooting. We also offer training programs to help customers maximize the benefits of our product. Additionally, we provide regular software updates and upgrades to ensure the product is up-to-date with the latest technology and industry standards. Our goal is to provide exceptional customer service and support to ensure the success of our customers' operations.

Packing and Shipping:

Product Packaging:

One Auxiliary Equipment product

User manual

Power cord

Shipping:

Shipping will be processed within 24 hours of order confirmation

Standard shipping time is 5-7 business days

For expedited shipping, please contact customer service
