

19 Stand Gutter Downspout Roll Forming Machine 7.5KW For Galvanized Steel Coils

Our Product Introduction

Basic Information

- Place of Origin: Jiangsu, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Gutter Downspout
- Minimum Order Quantity: 1 Set
- Price: USD15000--USD45000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

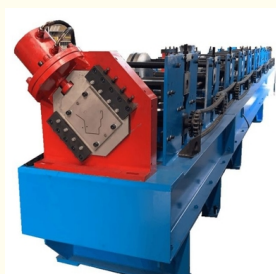

Product Specification

- Material: Galvanized Steel Coils
- Shaft Material: NO.45 Fine Steel
- Main Motor Power: 7.5KW
- Forming Stations: 19stands
- Thickness: 0.4-0.8mm
- Applicable Industries: Building Material Shops, Manufacturing Plant, Construction Works, Other
- Name: Gutter Downspout Roll Forming Machine
- Speed: 15m/min
- Highlight: **19 Stand Gutter Downspout Roll Forming Machine**

Product Description

19-Stand Roll Forming Machine For Gutter Downspouts 7.5KW Power Galvanized Steel Coils

Product Description:

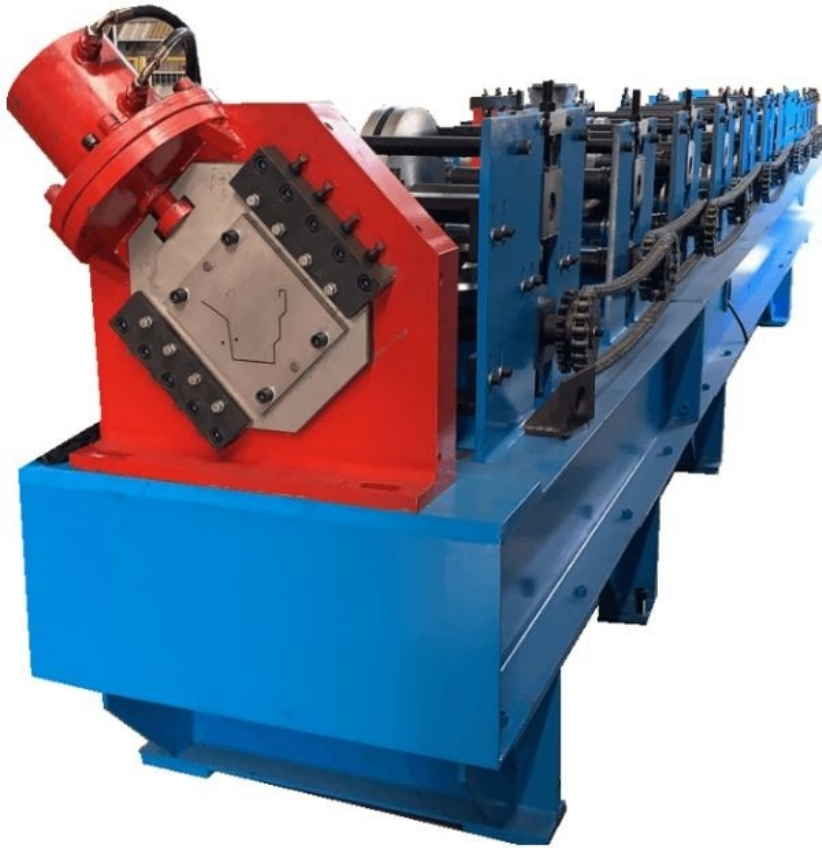

The roller material used in the construction of this machine is NO.45 fine steel with quench treatment, which provides excellent durability and long-lasting performance. The hardness of the rollers is HRC58-62, which ensures that the machine can withstand heavy usage and produce consistent results over time.

The control system of the Gutter Downspout Roll Forming Machine is a PLC, which is a highly advanced system that allows for precise and accurate control over the machine. This ensures that the machine operates smoothly and efficiently, which results in a high-quality product output.

The Gutter Downspout Roll Forming Machine comes with a 1-year warranty, which provides peace of mind for the user. This warranty covers any defects in material or workmanship, which ensures that the machine will perform as expected and provide reliable service for the duration of the warranty period.

Overall, the Gutter Downspout Roll Forming Machine is an excellent investment for any company that needs to produce high-quality round downspouts and elbows. This machine is built to last, and its advanced control system ensures that it operates with precision and accuracy. With its 1-year warranty, users can be confident that they are making a wise investment in a reliable and efficient piece of equipment.

Features:

Product Name: Gutter Downspout Roll Forming Machine

Speed: 15m/min

After-Sales Service: Engineers Available To Service Machinery Overseas

Control System: PLC

Roller Material: NO.45 Fine Steel With Quench Treatment, HRC58-62

Main Motor Power: 7.5KW

Can produce: Metal rain gutter roll forming machine, Round gutter downspout roll forming machine, Square metal downspout roll forming machine

Technical Parameters:

Product Name	Gutter Downspout Roll Forming Machine
Warranty	1 Year
Speed	15m/min
Forming Stations	19 stands
Control System	PLC

Main Motor Power	7.5KW
Applicable Industries	Building Material Shops, Manufacturing Plant, Construction Works, Other
Shaft Material	NO.45 Fine Steel
Roller Material	NO.45 Fine Steel With Quench Treatment, HRC58-62
After-Sales Service	Engineers Available To Service Machinery Overseas

Applications:

This Gutter Downspout Roll Forming Machine is suitable for a range of industries, including building material shops, manufacturing plants, construction works, and others. It is made from NO.45 fine steel with quench treatment, which provides a strong and durable roller material with an HRC58-62 hardness rating. The main motor power for this machine is 7.5KW, providing a powerful and efficient performance.

With this Gutter Downspout Roll Forming Machine, you can easily produce high-quality half round gutter, metal rain gutter, and round downspout products that are perfect for a range of applications. This machine is ideal for use in a variety of occasions and scenarios, including residential and commercial construction projects, roofing and gutter installation services, and more.

If you require assistance with the installation or maintenance of this machine, engineers are available to service machinery overseas. With this high-quality Gutter Downspout Roll Forming Machine from Hangzhou Maxwell, you can rest assured that you are getting a top-of-the-line product that is built to last.

Support and Services:

Welcome to our product technical support and services for the Gutter Downspout Roll Forming Machine.

Our machine is designed to produce seamless gutter downspouts with high precision and efficiency. If you encounter any technical issues or have any questions regarding the operation of the machine, our technical support team is available to provide assistance.

We offer a range of services to ensure the optimal performance of your machine, including:

[Installation and setup guidance](#)

[Regular maintenance and inspection](#)

[Replacement parts and repairs](#)

[Training for machine operators and maintenance staff](#)

[Technical support via phone or email](#)

Our goal is to ensure that your Gutter Downspout Roll Forming Machine operates at peak performance and delivers high-quality downspouts for your customers. Please don't hesitate to contact us if you need any assistance.

Packing and Shipping:

Product Packaging:

The Gutter Downspout Roll Forming Machine will be packed in a sturdy wooden crate to ensure safe transportation and delivery to the customer. The machine will be securely fastened and protected with foam padding to prevent any damage during transit.

Shipping:

The Gutter Downspout Roll Forming Machine will be shipped via a reliable and reputable freight company that specializes in heavy machinery transportation. The customer will be provided with a tracking number to monitor the shipment and ensure its timely delivery. The shipping cost will be included in the overall purchase price of the machine.
