

Advanced 7.5kw Storage Rack Roll Forming Machine With Integrated Automation And Cr12Mov Cutting Blades

Our Product Introduction

Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Storage Shelf Rack
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD75000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

Product Specification

- Servo Feeding Power: 3.0kw
- Dimension: 11*1.2*1.4m
- Total Power: 7.5kw
- Material: Galvanized Steel
- Tile Type: Galvanized Steel
- Cutting Blade: Cr12Mov
- Control Type: Automatic
- Product Design: Optional
- Highlight: 7.5kw Storage Rack Roll Forming Machine, Advanced storage rack roll forming machine, Advanced rack roll forming machine

Product Description

Product Description:

The Storage Rack Roll Forming Machine is made of high-quality materials, with a frame made of galvanized steel that ensures durability, reliability, and resistance to corrosion. The dimension of the machine is 11*1.2*1.4m, providing ample space for the production of large storage racks.

The machine is equipped with a powerful servo feeding system that guarantees smooth and accurate material feeding during the production process. The servo feeding power is 3.0kw, ensuring consistent and reliable performance even under heavy loads.

Designed for flexibility, the Storage Rack Roll Forming Machine comes with optional product design features that enable users to customize the machine to their exact production needs. This allows for the production of a wide range of storage rack designs, meeting the diverse needs of customers.

The Storage Rack Roll Forming Machine is part of a complete storage rack production line, providing a seamless and efficient production process from start to finish. With its reliable performance, high-quality output, and flexible design features, the Storage Rack Roll Forming Machine is an essential piece of equipment for any storage rack manufacturer looking to optimize their production process and meet the demands of their customers.

Features:

Product Name: Storage Rack Roll Forming Machine

Material: Galvanized Steel

Equipment Control Type: Automatic/Semi-automatic

Dimension: 11*1.2*1.4m

Warranty Period: 18 Months

Driven Type: Gearbox

This Steel Storage Rack Roll Forming Machine is perfect for industrial storage rack roll forming plant.

Technical Parameters:

Color	Blue
Servo Feeding Power	3.0kw
Tile Type	Galvanized Steel

Cutting Blade	Cr12Mov
Material	Galvanized Steel
Control Type	Automatic
Production Speed	4-6m/min
Material Of Coil	Cold-rolled Steel
Product Design	Optional
Driven Type	Gearbox

Applications:

The storage rack roll forming machine is produced in Zhejiang, China, and is certified by CE and ISO9001. This ensures that the product meets high-quality standards and is reliable for long-term use. The minimum order quantity for the storage rack roll forming machine is one set, and it comes with nude packing in a 40 feet container. The delivery time for the product is 60 workdays, and payment terms include T/T and L/C. The supply ability of this product is 30 sets per month, making it a popular choice among businesses of all sizes. The storage rack roll forming machine is equipped with a PLC from Panasonic in Japan, ensuring accurate and efficient control of the production line. The machine is available in blue, and the product design is optional. The control type of the storage rack roll forming machine is automatic, which makes it easy to operate and eliminates the need for manual labor. The cutting blade of the machine is made of Cr12Mov, ensuring that the machine can cut through a variety of materials with ease.

The storage rack roll forming machine is perfect for a wide range of applications and scenarios. It can be used to produce heavy-duty storage racks that are ideal for use in warehouses, factories, and other industrial facilities. The machine is versatile and can be used to produce a variety of different storage rack designs, depending on the needs of the user. Overall, the Hangzhou Maxwell Storage Rack Roll Forming Machine is a reliable and efficient solution for businesses looking to streamline their storage rack production line.

Customization:

Our storage rack roll forming machine is designed to produce high-quality steel storage racks with a cutting blade made of Cr12Mov. The machine is driven by gearbox technology, and the production speed ranges from 4-6m/min. The total power of the machine is 7.5kw, and we have a supply ability of 30 sets per month.

Support and Services:

Our technical support team is available to provide assistance with installation, operation, and maintenance of the machine. We also offer training services to help operators and maintenance personnel develop the skills necessary to operate and maintain the machine effectively.

In addition to technical support, we offer a range of services to help customers optimize their production processes and improve the quality of their storage rack components. These services include consulting, process optimization, and customized tooling design. Our goal is to provide our customers with the support and services they need to achieve their production goals and maximize the return on their investment in our Storage Rack Roll Forming Machine.

Packing and Shipping:

Product Packaging:

The storage rack roll forming machine will be securely packaged in a wooden crate to prevent any damage during transit.

All necessary components and accessories will be included in the package.

Shipping:

The storage rack roll forming machine will be shipped via a reliable and efficient courier service.

Shipping costs will be calculated based on the destination and weight of the package.

Customers will be provided with a tracking number to monitor the status of their shipment.

FAQ:

What is the brand name of the Storage Rack Roll Forming Machine?

The brand name is Hangzhou Maxwell.

Where is the Storage Rack Roll Forming Machine manufactured?

It is manufactured in Zhejiang, China.

What certifications does the Storage Rack Roll Forming Machine have?

The machine is certified with CE and ISO9001.

What is the minimum order quantity for the Storage Rack Roll Forming Machine?

The minimum order quantity is 1 set.

What are the packaging and delivery details for the Storage Rack Roll Forming Machine?

The machine will be delivered in nude packing in a 40 feet container. The delivery time is 60 workdays. Payment can be made through T/T or L/C. The supply ability is 30 sets per month.
