

## Galvanized Maximize Storage Space Storage Rack Roll Forming Machine High Performance

### Our Product Introduction

#### Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Storage Shelf Rack
- Minimum Order Quantity: 1 Set
- Price: USD25000-USD75000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 60 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

#### Product Specification

- Material Of Coil: Cold-rolled Steel
- Material: Galvanized Steel
- Driven Type: Gearbox
- Dimension: 11\*1.2\*1.4m
- Plc: Panasonic From Japan
- Servo Feeding Power: 3.0kw
- Control Type: Automatic
- Cutting Blade: Cr12Mov
- Highlight: Storage Space Rack Roll Forming Machine,  
High Performance Rack Roll Forming Machine,  
Galvanized storage rack roll forming machine

## Product Description

### Product Description:

With a dimension of 11\*1.2\*1.4m, this machine is compact enough to fit into most production lines without taking up too much space. Its blue color gives it a professional look that will fit in with your other equipment.

One of the best things about this machine is that it comes with an 18-month warranty period. This means that you can have peace of mind knowing that your investment is protected and that any issues will be taken care of by the manufacturer.

The Storage Rack Roll Forming Machine is perfect for manufacturing a variety of storage racks. You can adjust the machine to create racks of different sizes and shapes, depending on your needs. This makes it a versatile piece of equipment that can be used for different production runs.

In summary, the Storage Rack Roll Forming Machine is a reliable and efficient machine that can help you produce high-quality storage racks for your business. Its automatic/semi-automatic control system, production speed, and compact dimension make it an essential part of any storage rack production line.

### Features:

Product Name: steel storage rack roll forming machine

Material: Galvanized Steel

Product Design: Optional

Color: Blue

Tile Type: Galvanized Steel

Servo Feeding Power: 3.0kw

This storage rack roll forming machine is perfect for creating heavy-duty industrial storage racks. With optional product design, it can be customized to fit your specific needs. The machine is made from durable galvanized steel and produces tiles of the same material. It is equipped with a powerful 3.0kw servo feeding power for efficient operation.

### Technical Parameters:

Warranty Period	18 Months
Product Design	Optional
Driven Type	Gearbox

Material Of Coil	Cold-rolled Steel
Tile Type	Galvanized Steel
Servo Feeding Power	3.0kw
Production Speed	4-6m/min
Total Power	7.5kw
Cutting Blade	Cr12Mov
Material	Galvanized Steel

### Applications:

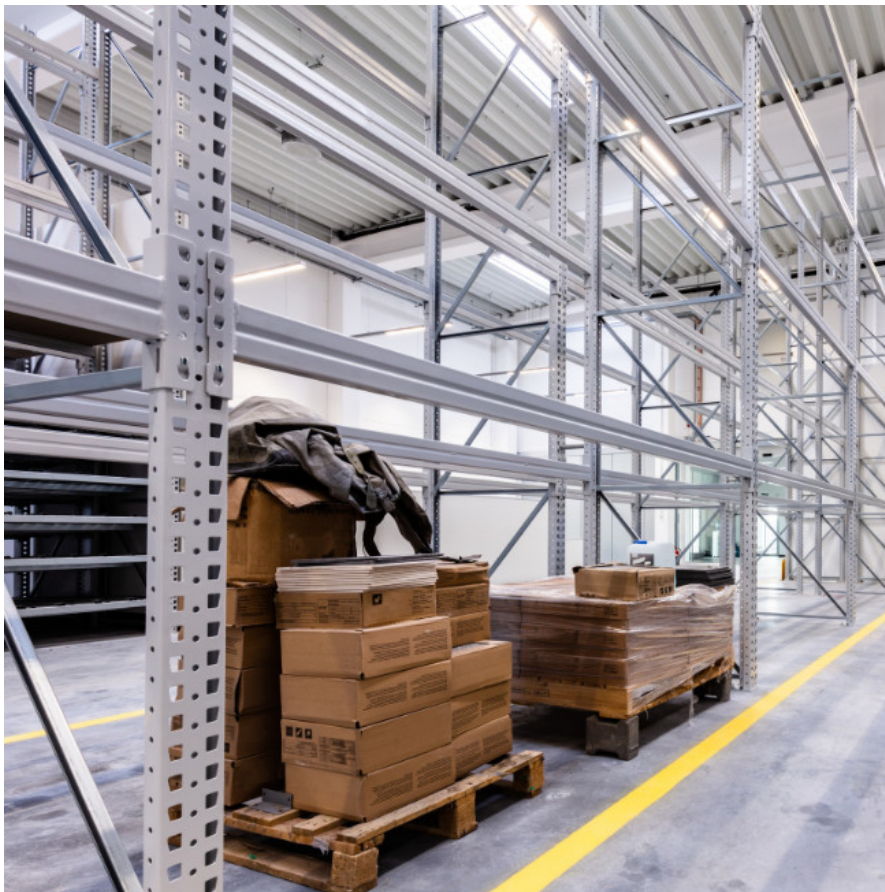

The Storage Rack Roll Forming Machine is made of galvanized steel, making it durable and long-lasting. It is designed with a gearbox driven type and automatic control type, ensuring efficient and accurate production. The machine also has a servo feeding power of 3.0kw, making it more energy-efficient.

The product design of this storage rack roll forming machine is optional, allowing customers to customize their machines to fit their specific needs. The machine comes with nude packing in a 40-foot container and has a delivery time of 60 workdays. Payment terms can be either T/T or L/C, and the supply ability is 30 sets per month.

The Storage Rack Roll Forming Machine is ideal for a wide range of product application occasions and scenarios. It can be used for producing various types of industrial storage racks, including heavy-duty storage racks, pallet racks, and selective racks. The machine is suitable for manufacturing storage racks used in warehouses, factories, supermarkets, and other commercial and industrial settings.

The Hangzhou Maxwell Storage Rack Roll Forming Machine is a reliable and efficient machine for producing high-quality storage racks. Its advanced features and customizable design make it an excellent choice for those looking to increase their production capacity and improve the efficiency of their industrial storage rack roll forming plant.

### Customization:

The control type of this storage rack production line is automatic, and it comes with a warranty period of 18 months. The product design is optional, and the machine is made of galvanized steel with a gearbox-driven type.

### Support and Services:

Our Storage Rack Roll Forming Machine is a high-quality and reliable product that is designed to meet the needs of various industries. We offer comprehensive technical support and services to ensure that our customers get the most out of their investment. Our team of experienced technicians is available to provide assistance with installation, operation, and maintenance of the machine. We also offer training services to help our customers become proficient in the use of the machine. In addition, we provide a range of repair and replacement services to keep your machine running smoothly. Our technicians are equipped with the latest tools and equipment to diagnose and repair any issues that may arise. We also offer spare parts and components to ensure that your machine is always in top condition. Our commitment to customer satisfaction means that we are always available to answer any questions or concerns you may have about the machine. We pride ourselves on our high level of service and support, and we are dedicated to helping our customers achieve their goals with our products.

### Packing and Shipping:

The Storage Rack Roll Forming Machine will be packaged in a wooden case to ensure its safe transport and delivery. The machine will be securely fastened inside the case to prevent any damage during shipping. The package dimensions will be 2500mm x 1200mm x 1500mm and the weight will be approximately 2000kg.

Shipping:

The Storage Rack Roll Forming Machine will be shipped via sea freight to the nearest port. The shipping duration is estimated to be between 20 to 30 days depending on the destination. The customer will be responsible for any customs clearance and associated fees.

### FAQ:

Q: What is the brand name of this Storage Rack Roll Forming Machine?

A: The brand name is Hangzhou Maxwell.

Q: Where is the place of origin of this machine?

A: The place of origin is Zhejiang, China.

Q: What certifications does this machine have?

A: This machine has CE and ISO9001 certifications.

Q: What is the minimum order quantity for this machine?

A: The minimum order quantity is 1 set.

Q: What is the packaging method and delivery time for this machine?

A: The machine is packaged in nude packing in a 40 feet container and delivery time is 60 workdays.

Q: What are the payment terms and supply ability for this machine?

A: The payment terms are T/T and L/C, and the supply ability is 30 sets per month.
