

## 13-18 Stations Color Steel Panel Glazed tile and corrugated panel Roll Forming Machine

### Our Product Introduction

For more products please visit us on [roll-formermachines.com](http://roll-formermachines.com)

#### Basic Information

- Place of Origin: Zhejiang, China
- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Model Number: Roof Panel
- Minimum Order Quantity: 1 Set
- Price: USD12000--USD20000
- Packaging Details: Nude Packing In a 40 Feet Container
- Delivery Time: 45 workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set per Mon

#### Product Specification

- Warranty: 1 Year
- Roller Stations: 13-18 Stations
- Main Frame Material: 350H Steel
- Roller Material: NO.45 FineSteel With Quench Treatment
- Cutting Method: Hydraulic Cutting
- Material: PPGL; PPGI; AL
- Cutting Tolerance:  $\pm 2\text{mm}$
- Tile Type: Colored Glazed Steel
- Highlight: Glazed tile Roll Forming Machine

## Product Description

### Product Description:

This Double Layer Roll Forming Machine is designed to operate with a power supply of 380V, 50Hz, 3 Phase, making it an ideal choice for industrial facilities and manufacturing plants. Additionally, this machine features hydraulic cutting, which ensures precision cuts with a cutting tolerance of  $\pm 2\text{mm}$ .

Whether you need to create metal sheets for roofing, wall cladding, or other applications, this double-layer roll Forming Machine is the perfect tool for the job. With its advanced features and high-speed production capabilities, it is an excellent investment for any manufacturing facility or construction company.

The Double Layer Roll Forming Machine is also incredibly easy to use, with a user-friendly interface that allows operators to quickly and easily adjust settings and control the production process. This makes it an excellent choice for both experienced and novice operators alike.

If you are looking for a reliable, high-speed production machine that can help you create high-quality metal sheets quickly and easily, then the Double Layer Roll Forming Machine is the perfect choice for you. With its advanced features and user-friendly interface, this machine is sure to become an essential tool in your manufacturing arsenal.

Overall, the Double Layer Roll Forming Machine is an excellent investment for any manufacturing facility or construction company that needs to create high-quality metal sheets quickly and easily. So why wait? Order your double-layer roll roll-forming machine today and start creating the metal sheets that you need for your next project!

### Applications:

This Metal Sheet Roll Forming Machine is designed to produce a variety of metal sheets including PPGL, PPGI, and AL. It is suitable for use in the production of floor decking and wall panels. The machine is equipped with 13-18 roller stations, making it capable of producing high-quality metal sheets quickly and efficiently. The roller material is NO.45 FineSteel with Quench Treatment, ensuring durability and longevity.

The control system for this machine is PLC control, which ensures that the machine operates smoothly and efficiently. The tile type for this machine is colored glazed steel, which is perfect for use in a variety of applications, including roofing and wall cladding.

The Metal Sheet Roll Forming Machine is ideal for use in a variety of industries, including construction, manufacturing, and agriculture. It is perfect for producing double-layer roof sheet roll forming machines, as well as floor decking and wall panel double-layer roll-forming machines. It is a versatile machine that can be used to produce a wide range of metal sheets to meet the needs of different applications.

### **Support and Services:**

Our Metal Sheet Roll Forming Machine comes with comprehensive technical support and services to ensure optimal performance and minimal downtime. Our team of highly skilled technicians is available to assist with installation, calibration, and maintenance of the machine. We also offer training programs for operators and maintenance personnel to ensure efficient operation and maximum productivity. Additionally, we provide consultation services for customizing the machine to meet specific production needs and requirements. Our technical support and services are designed to provide our customers with peace of mind and the assurance that they are getting the most out of their investment.

### **Packing and Shipping:**

#### **Product Packaging:**

The Metal Sheet Roll Forming Machine will be packaged in a sturdy wooden crate to ensure safe transportation. The machine will be wrapped in protective materials and secured with straps to prevent any damage during shipping.

#### **Shipping:**

Shipping will be arranged by our team and will be delivered to the address provided by the customer. Delivery times may vary depending on the destination. The customer will be provided with a tracking number once the machine has been shipped.

#### FAQ:

**Q1: What is the brand name of the Metal Sheet Roll Forming Machine?**

A1: The brand name of the Metal Sheet Roll Forming Machine is Hangzhou Maxwell.

**Q2: Where is the Metal Sheet Roll Forming Machine made?**

A2: The Metal Sheet Roll Forming Machine is made in Zhejiang, China.

**Q3: What certifications does the Metal Sheet Roll Forming Machine have?**

A3: The Metal Sheet Roll Forming Machine has CE and ISO9001 certifications.

**Q4: What is the minimum order quantity for the Metal Sheet Roll Forming Machine?**

A4: The minimum order quantity for the Metal Sheet Roll Forming Machine is 1 set.

**Q5: What is the packaging and delivery time for the Metal Sheet Roll Forming Machine?**

A5: The Metal Sheet Roll Forming Machine is packaged in nude packing in a 40 feet container, and the delivery time is 45 workdays. Payment terms accepted are T/T and L/C, and the supply ability is 30 sets per month.
