

Double Layer Roof Sheet Roll Forming Machine Customizable Cutting Tolerance $\pm 2\text{mm}$ Production Speed 30-45 Meters Per Minute

Our Product Introduction

For more products please visit us on roll-formermachines.com

Basic Information

- Brand Name: Hangzhou Maxwell
- Certification: CE,ISO9001
- Minimum Order Quantity: 1 Set
- Packaging Details: Nude Packing In A 40 Feet Container
- Delivery Time: 60 Workdays
- Payment Terms: T/T;L/C
- Supply Ability: 30 Set Per Mon

Product Specification

- Production Speed: 30-45 Meters Per Minute(as Your Require)
- Material: Galvanized Steel
- Forming Method: Roll Forming
- Roller Material: Cr12
- Thickness: 0.3-0.8mm
- Power: 7.5kW
- Main Frame Material: 350H Steel
- Tile Type: Colored Glazed Steel

Product Description

Product Description:

The Metal Sheet Roll Forming Machine is a versatile and efficient piece of equipment designed to streamline the production of various metal sheet products. With a production speed ranging from 30 to 45 meters per minute, this machine can be customized to meet your specific requirements, ensuring optimal performance and output.

Specifically tailored for the production of colored glazed steel tiles, the Metal Sheet Roll Forming Machine is ideal for creating high-quality glazed tiles that are both visually appealing and durable. Whether you are looking to manufacture glazed tiles for residential, commercial, or industrial applications, this machine offers the precision and reliability needed to achieve consistent results.

Featuring 13 roller stations, the Metal Sheet Roll Forming Machine is equipped to handle the complexities of roll forming with ease. The roller stations facilitate the shaping and molding of the metal sheet, ensuring a seamless and efficient production process. With a model number of BMS-1250, this machine is built to deliver superior performance and reliability.

When it comes to rolling thickness, the Metal Sheet Roll Forming Machine offers a range of 0.3 to 0.8mm, allowing for flexibility in producing a variety of metal sheet products. Whether you are working with thin or thick metal sheets, this machine can easily accommodate your specific requirements, making it a versatile and adaptable solution for your production needs.

In addition to its capabilities in creating colored glazed steel tiles, the Metal Sheet Roll Forming Machine can also be used for other applications such as corrugated panel roll forming, floor decking, and wall panel production. Its versatility makes it a valuable asset for manufacturers looking to diversify their product offerings and expand their capabilities.

Overall, the Metal Sheet Roll Forming Machine is a reliable and efficient solution for manufacturers in need of a double layer roll forming machine that can handle a variety of metal sheet products. With its high production speed, specialized capabilities for colored glazed steel tiles, and versatility in handling different types of metal sheets, this machine is a valuable addition to any production facility.

Technical Parameters:

Production Speed	30-45 Meters Per Minute
Roller Stations	13
Cutting Type	Servo Tracking Cutting
Material	Galvanized Steel
Model	BMS-1250
Roller Material	Cr12
Thickness	0.3-0.8mm
Forming Method	Roll Forming
Tile Type	Colored Glazed Steel
Power	7.5kW

Applications:

Hangzhou Maxwell Glazed tile and corrugated panel Roll Forming Machine is a versatile and high-quality product that is suitable for various application occasions and scenarios. With CE and ISO9001 certifications, this machine guarantees superior performance and reliability.

One of the key attributes of this Roll Forming Machine is its flexibility in production speed, ranging from 30 to 45 meters per minute, depending on your requirements. This feature makes it ideal for a wide range of projects, from small-scale operations to large industrial productions.

Whether you are working on roofing projects, wall panel installations, or any other metal sheet forming tasks, the Hangzhou Maxwell Roll Forming Machine can meet your needs effectively. Its cutting-edge servo tracking cutting technology ensures precision and efficiency in creating glazed tiles and corrugated panels with a thickness of 0.3mm to 0.8mm.

With Cr12 roller material, this machine offers durability and longevity, making it a reliable investment for your business. The minimum order quantity of 1 set and a supply ability of 30 sets per month make it accessible for businesses of all sizes.

When it comes to packaging and delivery, this Roll Forming Machine is conveniently packed in nude packaging in a 40 feet container, ensuring safe transportation to your location. The delivery time of 60 workdays allows for efficient planning and execution of your projects. For payment terms, T/T and L/C options are available, providing flexibility and convenience for your transactions. Whether you are a contractor, builder, or manufacturer, the Hangzhou Maxwell Glazed tile and corrugated panel Roll Forming Machine is the perfect solution for your metal sheet forming needs.

Customization:

Product Customization Services for the Metal Sheet Roll Forming Machine:

Brand Name: Hangzhou Maxwell

Certification: CE,ISO9001

Minimum Order Quantity: 1 Set

Packaging Details: Nude Packing In A 40 Feet Container

Delivery Time: 60 Workdays

Payment Terms: T/T;L/C

Supply Ability: 30 Set Per Month

Thickness: 0.3-0.8mm
Power: 7.5kW
Rolling Thickness: 0.3-0.8mm
Model: BMS-1250
Cutting Type: Servo Tracking Cutting
Product Attributes: Glazed tile and corrugated panel Roll Forming Machine, Floor Decking and Wall Panel Double Layer Roll Forming Machine

Support and Services:

The Metal Sheet Roll Forming Machine is equipped with a range of technical support and services to ensure optimal performance and customer satisfaction. Our dedicated team of experts provides comprehensive assistance for installation, training, maintenance, and troubleshooting. We offer timely updates and upgrades to enhance machine efficiency and productivity. Additionally, our customer service representatives are available to address any inquiries or concerns that may arise.

Packing and Shipping:

Product Packaging:

The Metal Sheet Roll Forming Machine is carefully packaged in a sturdy wooden crate to ensure safe transportation and delivery.

Shipping:

We offer worldwide shipping for the Metal Sheet Roll Forming Machine. The machine will be securely packed and delivered to your specified address within the agreed timeframe.

FAQ:

Q: What is the brand name of the Metal Sheet Roll Forming Machine?

A: The brand name of the Metal Sheet Roll Forming Machine is Hangzhou Maxwell.

Q: What certifications does the Metal Sheet Roll Forming Machine have?

A: The Metal Sheet Roll Forming Machine is certified with CE and ISO9001.

Q: What is the minimum order quantity for the Metal Sheet Roll Forming Machine?

A: The minimum order quantity for the Metal Sheet Roll Forming Machine is 1 set.

Q: How is the Metal Sheet Roll Forming Machine packaged for shipping?

A: The Metal Sheet Roll Forming Machine is packaged in Nude Packing in a 40 feet container.

Q: What is the delivery time for the Metal Sheet Roll Forming Machine?

A: The delivery time for the Metal Sheet Roll Forming Machine is 60 workdays.

Q: What are the payment terms accepted for the Metal Sheet Roll Forming Machine?

A: The accepted payment terms for the Metal Sheet Roll Forming Machine are T/T and L/C.

Q: What is the supply ability of the Metal Sheet Roll Forming Machine?

A: The supply ability of the Metal Sheet Roll Forming Machine is 30 sets per month.
