

Galvanized Steel Metal Sheet Roll Forming Machine with 0.3-0.8mm Thickness and Long-Lasting Cr12 Rollers

Our Product Introduction

For more products please visit us on roll-formermachines.com

Basic Information

- Brand Name: Hangzhou Maxwell
- Certification: CE,ISO9001
- Minimum Order Quantity: 1 Set
- Packaging Details: Nude Packing In A 40 Feet Container
- Delivery Time: 60 Workdays
- Payment Terms: T/T;L/C
- Supply Ability: 30 Set Per Mon

Product Specification

- Power: 7.5kW
- Rolling Thickness: 0.3-0.8mm
- Tile Type: Colored Glazed Steel
- Cutting Tolerance: ± 2 mm
- Thickness: 0.3-0.8mm
- Main Frame Material: 350H Steel
- Model: BMS-1250
- Production Speed: 30-45 Meters Per Minute(as Your Require)

Product Description

Product Description:

The Metal Sheet Roll Forming Machine is a versatile and efficient equipment designed for producing Colored Glazed Steel tiles with precision and ease. This machine is perfect for manufacturing a variety of products including Floor Decking, Wall Panels, and Roof Sheets.

With a cutting tolerance of $\pm 2\text{mm}$, the Metal Sheet Roll Forming Machine ensures accurate and consistent results with each production cycle. The high level of precision makes it ideal for creating quality products that meet industry standards.

Equipped with 13 roller stations, this machine offers excellent flexibility and customization options. The Roller Stations allow for the shaping and forming of the metal sheet with precision, resulting in a smooth and uniform finish.

The Metal Sheet Roll Forming Machine is capable of handling thickness ranging from 0.3mm to 0.8mm, making it suitable for a wide range of applications. Whether you need to manufacture thin or thick metal sheets, this machine can deliver reliable performance and consistent results.

Modelled as BMS-1250, this Roll Forming Machine is a Double Layer Roll Forming Machine that is designed to streamline the production process and increase efficiency. It is specially designed for producing Double Layer Roof Sheets, offering dual functionality for enhanced productivity.

Whether you are manufacturing Floor Decking, Wall Panels, or Roof Sheets, the Metal Sheet Roll Forming Machine is a reliable and efficient solution that can meet your production needs. With its advanced features and robust construction, this machine is built to deliver superior performance and durability.

Investing in the Metal Sheet Roll Forming Machine can help you optimize your production process, reduce production costs, and improve product quality. Its versatility and precision make it an essential tool for any metal sheet manufacturing operation.

Experience the benefits of a high-quality Double Layer Roll Forming Machine with the Metal Sheet Roll Forming Machine. Enhance your production capabilities and achieve outstanding results with this innovative and reliable equipment.

Technical Parameters:

Roller Material	Cr12
Tile Type	Colored Glazed Steel
Cutting Type	Servo Tracking Cutting
Rolling Thickness	0.3-0.8mm
Roller Stations	13
Production Speed	30-45 Meters Per Minute(as Your Require)
Material	Galvanized Steel
Forming Method	Roll Forming
Cutting Tolerance	$\pm 2\text{mm}$
Power	7.5kW

Applications:

Hangzhou Maxwell Metal Sheet Roll Forming Machine is a versatile and high-quality machine suitable for various product application occasions and scenarios. With its brand name of Hangzhou Maxwell and certifications of CE and ISO9001, this roll forming machine ensures reliability and performance.

Designed for efficiency, the Metal Sheet Roll Forming Machine has a minimum order quantity of 1 set and comes in nude packaging in a 40 feet container for convenient transportation. The delivery time is 60 workdays, and payment terms accepted are T/T and L/C, providing flexibility for customers.

With a cutting tolerance of $\pm 2\text{mm}$ and the ability to work with thicknesses ranging from 0.3mm to 0.8mm, this machine, model BMS-1250, is ideal for various applications. The forming method used is roll forming, ensuring precision and consistency in the final product.

The main frame material of the Metal Sheet Roll Forming Machine is 350H steel, guaranteeing durability and stability during operation.

The supply ability is 30 sets per month, making it suitable for high-demand production environments.

This roll forming machine is perfect for producing a range of products, including glazed tile and corrugated panel Roll Forming Machine, floor decking and wall panel Double Layer Roll Forming Machine, and double layer roof sheet roll forming machine. Its versatility and reliability make it a valuable asset for businesses in the construction and manufacturing industries.

Customization:

Brand Name: Hangzhou Maxwell

Certification: CE,ISO9001

Minimum Order Quantity: 1 Set

Packaging Details: Nude Packing In A 40 Feet Container

Delivery Time: 60 Workdays

Payment Terms: T/T;L/C

Supply Ability: 30 Set Per Month

Production Speed: 30-45 Meters Per Minute (as Your Require)

Rolling Thickness: 0.3-0.8mm

Thickness: 0.3-0.8mm
Tile Type: Colored Glazed Steel
Roller Stations: 13

Support and Services:

The Metal Sheet Roll Forming Machine comes with comprehensive Product Technical Support and Services to ensure smooth operation and maintenance. Our team of experts is dedicated to assisting you with any technical issues that may arise during the use of the machine.

Our services include regular maintenance checks, troubleshooting support, and software updates to keep your machine running efficiently. We also provide training sessions to help your staff operate the machine effectively and safely.

With our Product Technical Support and Services, you can rely on prompt assistance and expert guidance to maximize the performance and lifespan of your Metal Sheet Roll Forming Machine.

Packing and Shipping:

Product Packaging for Metal Sheet Roll Forming Machine:

This Metal Sheet Roll Forming Machine will be carefully packaged to ensure its safe delivery. It will be wrapped with protective materials to prevent any scratches or damages during transportation.

Shipping Information:

Once your order is confirmed, the Metal Sheet Roll Forming Machine will be shipped within 3-5 business days. We use reliable shipping services to deliver the machine to your specified address in a timely manner.

FAQ:

Q: What is the brand name of the Metal Sheet Roll Forming Machine?

A: The brand name of the Metal Sheet Roll Forming Machine is Hangzhou Maxwell.

Q: What certifications does the Metal Sheet Roll Forming Machine have?

A: The Metal Sheet Roll Forming Machine is CE and ISO9001 certified.

Q: What is the minimum order quantity for the Metal Sheet Roll Forming Machine?

A: The minimum order quantity for the Metal Sheet Roll Forming Machine is 1 set.

Q: How is the Metal Sheet Roll Forming Machine packaged for shipping?

A: The Metal Sheet Roll Forming Machine is packaged in Nude Packing in a 40 feet container.

Q: What is the delivery time for the Metal Sheet Roll Forming Machine?

A: The delivery time for the Metal Sheet Roll Forming Machine is 60 workdays.
