

0.3-0.8mm Metal Sheet Roll Forming Machine with ± 2 mm Cutting Tolerance and 30-45 Meters Per Minute Production Speed

Our Product Introduction

For more products please visit us on roll-formermachines.com

Basic Information

- Brand Name: Hangzhou Maxwell
- Certification: CE, ISO9001
- Minimum Order Quantity: 1 Set
- Packaging Details: Nude Packing In A 40 Feet Container
- Delivery Time: 60 Workdays
- Payment Terms: T/T; L/C
- Supply Ability: 30 Set Per Mon

Product Specification

- Forming Method: Roll Forming
- Production Speed: 30-45 Meters Per Minute (as Your Require)
- Model: BMS-1250
- Cutting Tolerance: ± 2 mm
- Rolling Thickness: 0.3-0.8mm
- Thickness: 0.3-0.8mm
- Roller Stations: 13
- Main Frame Material: 350H Steel

Product Description

Product Description:

The Metal Sheet Roll Forming Machine is a cutting-edge piece of equipment designed for efficient and precise roll forming operations. Utilizing the roll forming method, this machine is capable of shaping metal sheets with a thickness ranging from 0.3mm to 0.8mm. Whether you are working on double layer roof sheet roll forming or producing floor decking and wall panels, this machine offers versatility and reliability.

With a power capacity of 7.5kW, this Metal Sheet Roll Forming Machine is equipped to handle various metal forming tasks with ease. The main frame material, constructed from 350H Steel, ensures durability and stability during operation. This sturdy framework provides the necessary support for consistent and accurate roll forming results.

Whether you are a professional in the construction industry or a manufacturing specialist, the Metal Sheet Roll Forming Machine offers a seamless solution for your roll forming needs. Its precision in handling metal sheets within the 0.3mm to 0.8mm thickness range makes it an ideal choice for projects requiring meticulous attention to detail.

The machine's capabilities extend to double layer roll forming, allowing you to efficiently produce double layer roof sheets with precision and efficiency. Additionally, it excels in creating floor decking and wall panels, making it a versatile asset for a range of applications. The Double Layer Roll Forming Machine feature enables you to enhance your production efficiency and output quality.

Investing in the Metal Sheet Roll Forming Machine means investing in a reliable and high-performance tool for your metal forming operations. Its robust construction and advanced features ensure smooth operation and consistent results, meeting the demands of modern manufacturing and construction projects.

Whether you are looking to streamline your production process, enhance the quality of your output, or expand your capabilities in roll forming, the Metal Sheet Roll Forming Machine is the ideal solution. With its roll forming method, precise thickness range, power capacity, and sturdy frame material, this machine offers a comprehensive package for efficient and effective metal sheet forming.

Technical Parameters:

Tile Type	Colored Glazed Steel
Thickness	0.3-0.8mm
Model	BMS-1250
Roller Stations	13
Forming Method	Roll Forming
Cutting Type	Servo Tracking Cutting
Cutting Tolerance	±2mm
Power	7.5kW
Material	Galvanized Steel
Production Speed	30-45 Meters Per Minute(as Your Require)

Applications:

The Metal Sheet Roll Forming Machine from Hangzhou Maxwell is a versatile and efficient equipment designed for producing glazed tile and corrugated panel. With a brand name known for quality and reliability, this machine is certified with CE and ISO9001, ensuring it meets international standards.

Whether for large-scale industrial production or small-scale operations, this roll forming machine has a minimum order quantity of 1 set, making it accessible to various businesses. The packaging details involve nude packing in a 40 feet container, ensuring safe transportation and delivery of the equipment.

With a delivery time of 60 workdays, clients can expect timely fulfillment of their orders. Payment terms accepted include T/T and L/C, providing flexibility for different financial preferences. The supply ability of 30 sets per month ensures consistent availability of the machine for those in need.

Equipped with 13 roller stations and utilizing Cr12 material for the rollers, this machine offers precision and durability in the production process. The cutting tolerance of ±2mm and rolling thickness range of 0.3-0.8mm further enhance the machine's capabilities in creating high-quality glazed tile and corrugated panels.

Common application occasions and scenarios for this Metal Sheet Roll Forming Machine include the manufacturing of double layer roof sheet roll forming machine. Its adaptability and efficiency make it suitable for various construction projects, roofing installations, and manufacturing facilities requiring glazed steel tiles.

Customization:

Product Customization Services for the Metal Sheet Roll Forming Machine:

- Brand Name: Hangzhou Maxwell
- Certification: CE,ISO9001
- Minimum Order Quantity: 1 Set
- Packaging Details: Nude Packing In A 40 Feet Container
- Delivery Time: 60 Workdays
- Payment Terms: T/T;L/C
- Supply Ability: 30 Set Per Month

- Main Frame Material: 350H Steel
- Roller Stations: 13
- Material: Galvanized Steel
- Cutting Type: Servo Tracking Cutting
- Production Speed: 30-45 Meters Per Minute (as Your Require)

Support and Services:

- Installation assistance and guidance
- Operation training for machine users
- Troubleshooting support for any technical issues
- Regular maintenance services to ensure optimal performance
- Availability of spare parts for replacement
- Continuous product updates and improvements

Packing and Shipping:

Product Name: Metal Sheet Roll Forming Machine

Description: Our Metal Sheet Roll Forming Machine is designed to efficiently produce metal sheets with precision and speed. It is ideal for industrial use and can handle various types of metal sheets.

Package Includes: Metal Sheet Roll Forming Machine, User Manual

Shipping: We ship our products securely packaged to ensure safe delivery. Shipping times may vary depending on location.

FAQ:

A: The brand name of this machine is Hangzhou Maxwell.

Q: What certifications does this Metal Sheet Roll Forming Machine have?

A: This machine is certified with CE and ISO9001.

Q: What is the minimum order quantity for this Metal Sheet Roll Forming Machine?

A: The minimum order quantity for this machine is 1 set.

Q: How is this Metal Sheet Roll Forming Machine packaged for delivery?

A: This machine is packaged in Nude Packing in a 40 feet container.

Q: What is the delivery time for this Metal Sheet Roll Forming Machine?

A: The delivery time for this machine is 60 workdays.

Q: What are the payment terms accepted for this Metal Sheet Roll Forming Machine?

A: The accepted payment terms for this machine are T/T and L/C.

Q: What is the supply ability of this Metal Sheet Roll Forming Machine?

A: The supply ability of this machine is 30 sets per month.
