

0.3-0.8mm Thickness Glazed Tile and Corrugated Panel Roll Forming Machine with Servo Tracking Cutting Technology

Our Product Introduction

For more products please visit us on roll-formermachines.com

Basic Information

- Brand Name: Hangzhou Maxwell
- Certification: CE,ISO9001
- Minimum Order Quantity: 1 Set
- Packaging Details: Nude Packing In A 40 Feet Container
- Delivery Time: 60 Workdays
- Payment Terms: T/T;L/C
- Supply Ability: 30 Set Per Mon

Product Specification

- Roller Stations: 13
- Thickness: 0.3-0.8mm
- Material: Galvanized Steel
- Main Frame Material: 350H Steel
- Rolling Thickness: 0.3-0.8mm
- Power: 7.5kW
- Production Speed: 30-45 Meters Per Minute(as Your Require)
- Cutting Tolerance: ± 2 mm

Product Description

Product Description:

The Metal Sheet Roll Forming Machine is a versatile and efficient equipment designed for manufacturing various metal products with precision and consistency. This machine is specifically engineered to provide high-quality results for a wide range of applications, including glazed tile and corrugated panel Roll Forming, floor decking, wall panel production, and more.

Key Product Attributes:

Cutting Tolerance: $\pm 2\text{mm}$

Material: Galvanized Steel

Thickness: 0.3-0.8mm

Rolling Thickness: 0.3-0.8mm

Forming Method: Roll Forming

The Metal Sheet Roll Forming Machine is built to deliver precise cutting with a tolerance of $\pm 2\text{mm}$, ensuring accurate and consistent results for every production run. With its ability to work with galvanized steel material, this machine is suitable for creating durable and high-quality metal products that meet industry standards.

Thanks to its wide range of thickness compatibility (0.3-0.8mm), the Metal Sheet Roll Forming Machine offers flexibility in production, allowing for the creation of various products such as glazed tiles, corrugated panels, floor decking, wall panels, and more. Whether you need to manufacture glazed tiles or corrugated panels, this machine can handle the task efficiently and effectively.

Utilizing the Roll Forming method, this machine ensures precise shaping and forming of metal sheets, resulting in consistent product quality and accuracy. The Roll Forming process guarantees that each product meets the required specifications, making it ideal for producing a wide range of metal components with intricate designs and shapes.

With its advanced capabilities and user-friendly design, the Metal Sheet Roll Forming Machine is a reliable and cost-effective solution for metal fabrication needs. Whether you are working on glazed tile production, corrugated panel manufacturing, or other metal forming applications, this machine offers the versatility and performance required to meet your production demands.

Invest in the Metal Sheet Roll Forming Machine today and experience the efficiency and precision it brings to your metal fabrication processes. Enhance your production capabilities and achieve superior results with this durable and reliable equipment that is designed to meet the diverse needs of the metalworking industry.

Technical Parameters:

Production Speed	30-45 Meters Per Minute(as Your Require)
Roller Stations	13
Rolling Thickness	0.3-0.8mm
Thickness	0.3-0.8mm
Tile Type	Colored Glazed Steel
Model	BMS-1250
Material	Galvanized Steel
Roller Material	Cr12
Cutting Type	Servo Tracking Cutting
Power	7.5kW

Applications:

The **Hangzhou Maxwell Metal Sheet Roll Forming Machine** is a versatile and efficient solution for various product application occasions and scenarios. With its advanced features and specifications, this machine is ideal for a wide range of industries and projects. Whether you need to produce **Floor Decking and Wall Panel**, double layer roof sheets, or other metal sheet products, the **BMS-1250** model is designed to meet your requirements. Its 13 roller stations and rolling thickness of 0.3-0.8mm ensure precision and high-quality output.

Thanks to its production speed of 30-45 meters per minute (as you require), the **Hangzhou Maxwell Metal Sheet Roll Forming Machine** is suitable for both small-scale operations and large-scale manufacturing processes. The cutting tolerance of $\pm 2\text{mm}$ guarantees accurate and consistent results.

With **CE** and **ISO9001** certifications, you can trust the quality and reliability of this machine. The minimum order quantity of 1 set, packaging details of nude packing in a 40 feet container, and delivery time of 60 workdays make it convenient to acquire and receive the product.

For your convenience, payment terms include **T/T** and **L/C**, and the supply ability is 30 sets per month. Whether you are in the construction industry, manufacturing sector, or any other field that requires metal sheet forming, the **Hangzhou Maxwell Metal Sheet Roll Forming Machine** is a valuable asset for your operations.

Customization:

Product Customization Services for the Metal Sheet Roll Forming Machine:

Brand Name: Hangzhou Maxwell

Certification: CE, ISO9001

Minimum Order Quantity: 1 Set
Packaging Details: Nude Packing In A 40 Feet Container
Delivery Time: 60 Workdays
Payment Terms: T/T; L/C
Supply Ability: 30 Set Per Month
Tile Type: Colored Glazed Steel
Forming Method: Roll Forming
Power: 7.5kW
Cutting Type: Servo Tracking Cutting
Model: BMS-1250

Support and Services:

The Metal Sheet Roll Forming Machine is a state-of-the-art equipment designed for producing high-quality metal sheets with precision and efficiency. Our product technical support and services include:

- Installation guidance to ensure proper setup and configuration of the machine
- Training sessions for operators to maximize productivity and minimize downtime
- Regular maintenance checks to keep the machine running smoothly and prevent any issues
- Troubleshooting assistance in case of any technical problems or malfunctions
- Upgrades and customization options to adapt the machine to specific production needs

Our team of experts is dedicated to providing comprehensive support and services to help you get the most out of your Metal Sheet Roll Forming Machine.

Packing and Shipping:

Product Packaging:

The Metal Sheet Roll Forming Machine will be securely packed in a wooden crate to ensure safe transportation and delivery.

Shipping:

We offer worldwide shipping for the Metal Sheet Roll Forming Machine. Once the order is confirmed, the machine will be shipped within 3-5 business days using a reliable shipping service.

FAQ:

Q: What is the brand name of the Metal Sheet Roll Forming Machine?

A: The brand name of the Metal Sheet Roll Forming Machine is Hangzhou Maxwell.

Q: What certifications does the Metal Sheet Roll Forming Machine have?

A: The Metal Sheet Roll Forming Machine is certified with CE and ISO9001.

Q: What is the minimum order quantity for the Metal Sheet Roll Forming Machine?

A: The minimum order quantity for the Metal Sheet Roll Forming Machine is 1 set.

Q: How is the Metal Sheet Roll Forming Machine packaged for delivery?

A: The Metal Sheet Roll Forming Machine is packaged in Nude Packing in a 40 feet container.

Q: What is the delivery time for the Metal Sheet Roll Forming Machine?

A: The delivery time for the Metal Sheet Roll Forming Machine is 60 workdays.

Q: What are the payment terms accepted for the Metal Sheet Roll Forming Machine?

A: The accepted payment terms for the Metal Sheet Roll Forming Machine are T/T and L/C.

Q: What is the supply ability of the Metal Sheet Roll Forming Machine?

A: The supply ability of the Metal Sheet Roll Forming Machine is 30 sets per month.
